

Cassette awning

markilux 990

The compact markilux with folding arms – svelte, attractive and functional.

Product Characteristics

Wind resistance class 2
Beaufort 5 → 7.5–10.4 m/s → 28–37 km/h → 17–23 mph

11

1 face fixture

1 face fixture, maximum pitch of 35°

1 top fixture

1 top fixture, view from the rear

2 twin steel-link chain, corrosion protected

2 bionic tendon made of high-tech fibres for optimum power transference ¹⁾

during extension

3 wall sealing profile ¹⁾, end cap insert in polished chrome

¹⁾ Optional accessories

Product Characteristics

Description

- the perfectly designed compact cassette awning. The outstanding “lightweight” for balcony and patio

Special features

- self-supporting cassette profile construction, the brackets being installed at each end of the awning – also suitable for bridging larger distances
- cassette with arms situated in front and at each end, which – when the awning is closed – are encompassed fully by the front profile lending a harmonious overall appearance to the awning
- even when the awning is fully extended, the roller tube is completely protected

Dimensions

- cassette in the standard version: depth 217 mm, height 124 mm
- single unit: minimum width 179 cm at the smallest projection of 150 cm, maximum width 500 cm at the largest projection of 300 cm

Roller tube and lateral bearings

- round roller tube Ø 85 mm with keyway, galvanised steel – excellent stability, ensures near perfect cover performance even at the largest widths
- the arm bearer is made of die-cast aluminium, powder coated, with integrated, infinitely variable pitch setting mechanism

Blind profiles

- extruded aluminium, in façade quality, powder coated
- cassette in two parts
- semi-circular front profile with integrated gutter

Folding arms

- profiles in extruded aluminium, in façade quality, powder coated
- moving parts made of drop-forged aluminium - the arms are therefore extremely fracture resistant
- pivot bolts in stainless steel run in Teflon-coated bronze bushes - practically maintenance free, virtually silent and extremely hard wearing
- power transference via corrosion-protected twin steel-link chains at the elbow joint, optionally with innovative bionic tendon made of high tensile, high-tech fibre – low in friction, noiseless, insensitive to corrosion and UV resistant

End caps

- the cassette insert sections are made of high-quality plastic, powder coated or in a polished chrome finish
- the front profile end caps are made of high-quality plastic, powder coated, with water drainage holes

Fixture brackets

- face fixture, top fixture, eaves fixture
- extruded aluminium, powder coated
- also available in individual widths (on request)
- pitch range 5°–35° (face fixture)
- 5°–70° (top or eaves fixture)
- spacer plates, stand-off brackets and other accessories are available

Frame and end cap colours

markilux frame colours without surcharge

traffic white, RAL 9016

metallic aluminium, RAL 9006

grey brown, similar to RAL 8019

off-white textured finish, 5233 ¹⁾

stone grey metallic, 5215 ¹⁾

anthracite metallic, 5204 ¹⁾

havana brown textured finish, 5229 ¹⁾

off-white textured finish, 5233 ¹⁾
end cap insert in polished chrome

stone grey metallic, 5215 ¹⁾
end cap insert in polished chrome

anthracite metallic, 5204 ¹⁾
end cap insert in polished chrome

Combination options – possible in any frame colour.

Non-standard powder-coated finish

Bespoke frame colours incur a surcharge – matt, metallic, finely textured and pearl finishes as well as other colour ranges (DB, Tiger etc.) on request. All frame colours are available at a surcharge with enhanced corrosion protection.

Colours may differ slightly from those depicted in both hue and finish.

¹⁾ textured finish
